Formulated with ProOne’s advanced XPL+ Technology, the Engine Life Treatment is unmatched in protection against friction and heat. It is able to withstand 50 times more load than ordinary lubricants which is critical in reducing wear at start-up. From lawnmowers to racing engines, Engine Life Treatment will help extend an engine’s working life and performance.

**DIRECTIONS FOR USE**
- 4-6 quart system - add 12oz into engine crankcase
- 8-10 quart system - add 24oz into engine crankcase
- Larger oil capacity - use at 10% by total volume
- Wet bath clutches - use at 5% by volume

**BOTTOM LINE BENEFITS**
- Withstands friction & high temperatures
- Helps increase engine life
- Increases engine performance
- Extends oil change intervals 25% to 50%
- Helps protect engine wear during start-up
- Compatible with synthetic and petroleum oil
- Slows oxidation and corrosion
- Protects and conditions seals
- No solids, no chlorine, no harmful solvents

**APPLICATIONS**
- Gas or diesel engines
- High mileage engines
- Racing engines
- Sports cars
- Hot Rods
- Heavy duty trucking
- Agriculture
- Marine
- Industrial
- Motorcycle
- Lawmowers
- Off-road vehicles
